

EU Cyber Direct

Website technical specifications

Front-end functionality

Sitemap and website structure

The website is to be comprised of four main sections: 'about', 'research', 'events' and 'knowledge hub'. These are to be accessible in the navigation bar. Sub-sections will be accessed through a 'view more' logic on their parent pages and not through a drop-down menu.

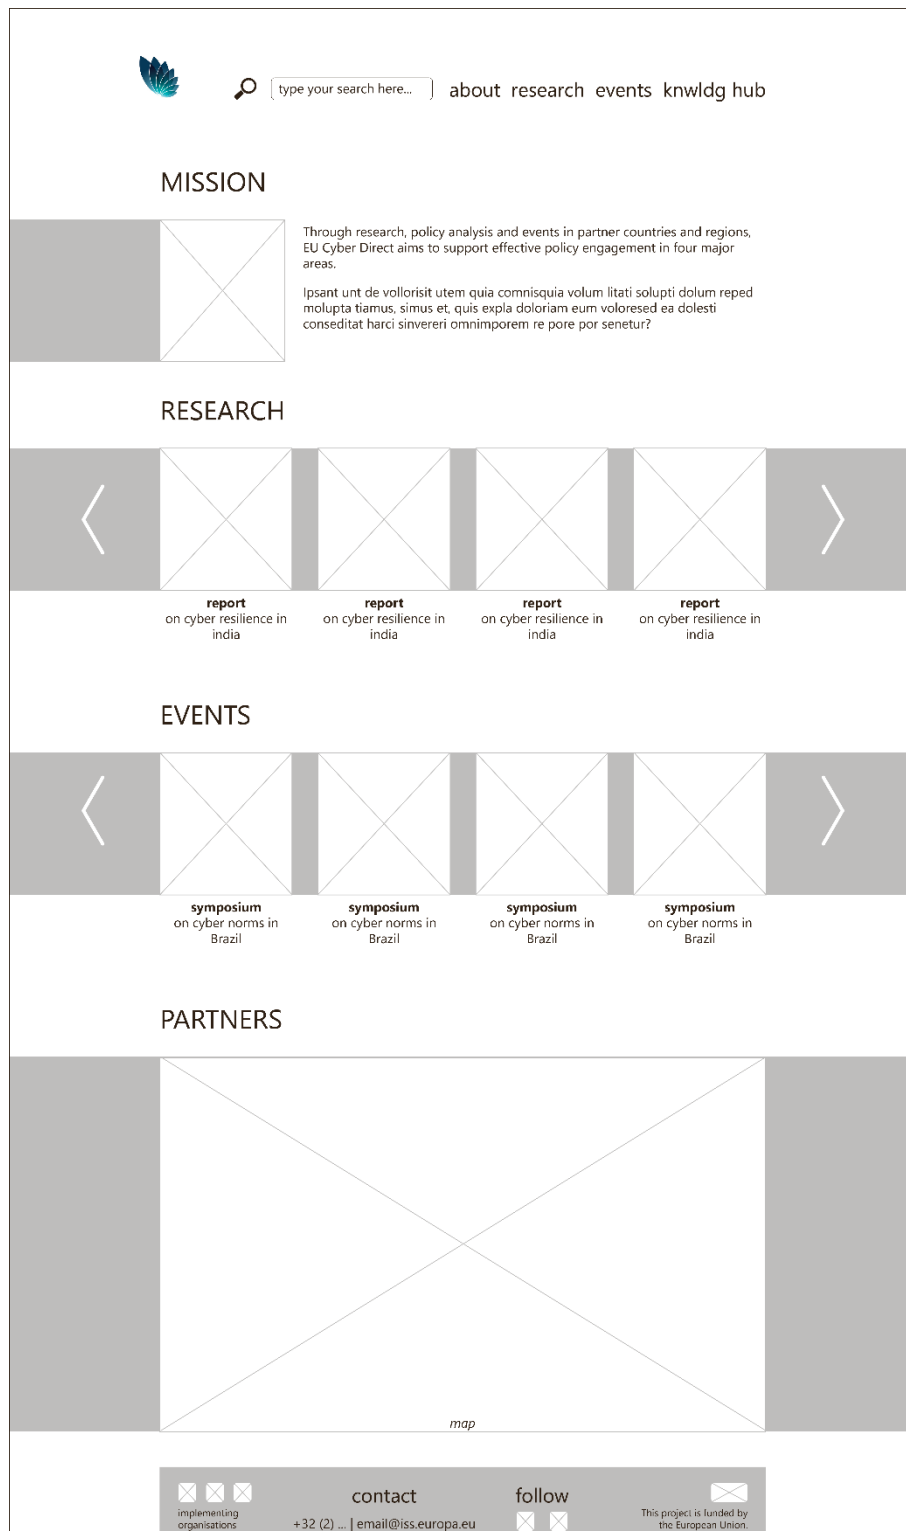

Home page

The home page is to be comprised of a background image and the (possibly animated) logo of the project.

Scrolling down, the top menu becomes sticky, with the logo blending into a smaller version of itself.

The home page is further contain two sections listing 'research' and 'events' records, as well as interactive map feature ([JavaScript](#)), linking to the knowledge hub pages of partner countries/regions.

About

Three sections on the 'about' page to contain 'read more' links: 'team' and both boards, which will have their own respective pages. These sections contain a grid of thumbnail images of the people listed under 'read more'.

about research events knowldg hub

MISSION

Through research, policy analysis and events in partner countries and regions, EU Cyber Direct aims to support effective policy engagement in four major areas.

Ipsant unt de vollorisit utem quia commisquia volum litati solupti dolum reped molupta tiamus, simus et, quis expla doloriam eum voloresed ea dolesti coneditat harci sinvereri omnimporem re pore por senetur?

TEAM

Research

The research page is to comprise of four lists of publications (broken down by the four research areas shown below). Each list can be filtered by year and partner country/region.

The screenshot shows a research page layout with a header and four main sections. The header includes a logo, a search icon, and navigation links: "about", "research", "events", and "knowldg hub".

INTERNATIONAL LAW
year: all, 2018, 2019, 2020
partner: all, Brazil, China, India, Japan, South Korea, United States, Asia-Pacific, Latin-America

NORMS
year: all, 2018, 2019, 2020
partner: all, Brazil, China, India, Japan, South Korea, United States, Asia-Pacific, Latin-America

CONFIDENCE BUILDING MEASURES
year: all, 2018, 2019, 2020
partner: all, Brazil, China, India, Japan, South Korea, United States, Asia-Pacific, Latin-America

RESILIENCE
year: all, 2018, 2019, 2020
partner: all, Brazil, China, India, Japan, South Korea, United States, Asia-Pacific, Latin-America

Each section contains a carousel of report thumbnails. The thumbnails are currently blank, showing only the text "report on cyber resilience in india".

At the bottom of the page, there is a footer with contact information: "contact +32 (2) ... | email@iss.europa.eu", social media icons for "follow", and a logo for "implementing organisations". A small text on the right states: "This project is funded by the European Union."

Each entry (showing a thumbnail pulled directly from the publication's PDF) to lead to a separate page containing an executive summary of a

publication, its cover page thumbnail pulled directly from the publication's PDF, possibly graphics (svg or image), and a link to the PDF document.

The screenshot shows a web page layout for a publication. At the top left is a logo of a blue leaf and a magnifying glass icon. To the right, the text "about research events knowldg hub" is displayed. Below this is the heading "PUBLICATION". On the left side, there is a grey rectangular area with a white 'X' over it, and below it, the text "download pdf". To the right of this area are several paragraphs of placeholder text (Lorem Ipsum). Below the text, there is a large rectangular area with a white 'X' over it. At the bottom of the page, there is a grey footer bar containing icons for "implementing organisations", "contact" (with phone and email icons), "follow" (with social media icons), and "This project is funded by the European Union" (with a European Union flag icon).

Events

The events page is to comprise of a single list of events which can be filtered by year and partner country/region. Each entry to lead to a separate page containing an event summary and images.

Knowledge Hub

The knowledge hub page is to comprise of the map from the home page and a lists of policy documents which can be filtered by year and partner country/region. Each entry links to a separate page that describes the referenced policy document and provides an external link to the original.

The screenshot shows a web page layout for a Knowledge Hub. At the top left is a logo of a blue leaf and a magnifying glass icon. To the right are navigation links: "about", "research", "events", and "knwidg hub". Below this is a section titled "PARTNERS" which contains a large placeholder box with a diagonal "X" and the word "map" centered below it. The next section is titled "KNOWLEDGE HUB" and features a filter menu. The filter menu has two rows: "year" with options "all", "2018", "2019", and "2020"; and "partner" with options "all", "Brazil", "China", "India", "Japan", "South Korea", "United States", "Asia-Pacific", and "Latin-America". Below the filter menu is a carousel of four items, each with a left and right arrow. Each item is a placeholder with a diagonal "X" and the text "strategy on cyber resilience in japan" below it. The footer contains three sections: "implementing organisations" with three icons, "contact" with the phone number "+32 (2) ..." and email "email@iss.europa.eu", "follow" with two social media icons, and a logo for the European Union with the text "This project is funded by the European Union".

Individual country/partner pages under the knowledge hub

Knowledge hub pages of partner countries/regions to contain sections displaying publications, events, as well as the knowledge hub entries specific to that country/region.

 This project is funded by the European Union.

Common features

- All pages are to be fully functional on any device from a smartphone to a PC screen, including the display (and reflow) of text and interactive features.
- A search function is to be accessible in the vicinity of the navigation bar.
- Every page's footer to contain contact details, logos of the three implementing organisations, icons with links to social media and a one-liner on the funding of EU Cyber Direct.
- All entries under research, events, and the knowledge hub are tagged according to year, partner and research area.

Back-end functionality

Content managers will be able to create entries for research, events, team, both boards and the knowledge hub, as well as edit all text on the page.

Further required features include:

- Content management system (CMS): WordPress
- Filtering entries by tag
- Document upload
- HTML editor
- Support for (JavaScript-generated) svg graphics
