

## The EUGS one year on: Challenges to European security – and EU responses

*A roundtable discussion organised by the EU Institute for Security Studies*

30 May 2017

Sofitel Brussels Europe  
1, Place Jourdan

Coming one year after the issuance of the EU Global Strategy (EUGS), this EUISS event aims to advance the conversation about its implementation and next steps in an increasingly connected, contested and complex world. The launch of two new EUISS publications provides an opportunity to both take stock of last year's developments and set the tone for future policy debates.

The EUISS '**Yearbook of European Security**' (YES) brings together the facts, maps, graphs and charts on the key issues facing the EU and its external action. In addition to updated data on instruments and policies covered in the previous years, this edition provides new information on the 2016 Security and Defence Package, defence cooperation and industry, as well as forces and deployments.

'**After the EUGS: building resilience**' is the third in the series of the EUISS books devoted to the EU Global Strategy and its implementation. After security and defence, leading experts and analysts have now shared their views on resilience as one of the cornerstones of turning EUGS vision into action. From regional challenges to thematic developments, this book explores the role of the EU in fostering state and societal resilience.

**16:00 - 16:30** Registration and welcome

**16.30 - 16:40** Opening remarks
